

Good afternoon,

The 2 quotes are requests for the next board meeting. The first is for Havis IPAD chargers and mounts for the apparatus. These mounts and chargers are designed for use in the field, so they are a rugged build. The quote is through Auto Solutions, as they are a designated Havis dealer.

The second quote is for all new flashlights for the apparatus. This is a state contract price and replaces all the hand lights with newer and longer lasting LED headlights and additional box lights for the apparatus. This is state contract pricing for the flashlights.

Any questions please let me know.
